Midnight Blue
(Pumadur HF +RT only)

Even though there have been and continue to be many technical advances in printing, colour reproduction and product manufacture, the colours shown may not match and in some cases differ considerably between the actual colours achieved on site. No responsibility can be accepted once the products have been applied. It is strongly recommended that a sample is obtained and checked along with a site sample trial where possible for final approval.

Pumadur® Uni-Pak Colour Chart

Mozaico Classic Colour Chart

Mozaico Classic is an epoxy resin based seamless terrazzo flooring system using marble and granite in a classical palette. With a neutral off white background colour to maintain a self assured and relaxed theme that will stand the test of time and blend easily with corporate and interior design schemes, it is available in an elegant range of colour combinations as standard.

Mozaico Classic is ideal for large projects where marble would traditionally be used. The application technique and thin section abilities of a resin system offer the added benefits of durability and seamless integrity.

It is strongly recommended that a sample is obtained and checked along with a site sample trial where possible for final approval.

Mozaico Spectrum Colour Chart

Mozaico Spectrum is an epoxy resin based seamless terrazzo style flooring system using responsibly sourced, recycled clear glass within the resin matrix. In a range of 8 strong yet stylish colour combinations, it is designed to accentuate the contemporary feel of an installation by becoming a statement piece in its own right.

Environmentally aware whilst remaining visually indulgent, Mozaico Spectrum is a durable, practical and attractive solution with an easy to clean and hardwearing finish.

Even though there have been and continue to be many technical advances in printing, colour reproduction and product manufacture, the colours shown may not match and in some cases differ considerably between the actual colours achieved on site. No responsibility can be accepted once the products have been applied. Mozaico Inspiration Colour Chart

Mozaico Inspiration is an epoxy resin based seamless terrazzo style flooring with the addition of recycled mirrored glass and mother of pearl. An exciting range of contemporary and appealing coloured resins opens up endless application possibilities in modern developments where the floor can play a starring role within the design of a building.

The mother of pearl and mirrored glass amalgamation is blended specifically to enhance the finish and colour of the floor whilst it remains characteristically durable and able to withstand the rigours of a heavily trafficked environment.

Even though there have been and continue to be many technical advances in printing, colour reproduction and product manufacture, the colours shown may not match and in some cases differ considerably between the actual colours achieved on site. No responsibility can be accepted once the products have been applied. It is strongly recommended that a sample is obtained and checked along with a site sample trial where possible for final approval.

Mozaico Integra Colour Chart

Mozaico Integra is a heavy duty polyurethane resin based seamless terrazzo flooring system. Using a combination of inert coloured granite aggregate within a high performance resin, Mozaico Integra offers the beauty of a marble terrazzo with the advantages of a heavy duty resin rich screed with excellent abrasion and chemical resistance.

Ideal for installation within prestige industrial and pharmaceutical environments, Mozaico Integra is available in a range of standard colours meeting both specification and design requirements. Additionally, Mozaico Integra can be manufactured in an electro static dissipative format.

Even though there have been and continue to be many technical advances in printing, colour reproduction and product manufacture, the colours shown may not match and in some cases differ considerably between the actual colours achieved on site. No responsibility can be accepted once the products have been applied. It is strongly recommended that a sample is obtained and checked along with a site sample trial where possible for final approval.

Intrica Fusion Colour Chart

Resdev's Intrica Fusion is available in a selection of bespoke blends in stylish colour combinations and is proven to provide a durable, attractive and long lasting finish for both physically demanding and corporate settings.

A subtle and fluid collection of pigmented kiln dried quartz aggregate amalgamated within a clear epoxy resin matrix, Intrica Fusion is ideal for application in industrial and commercial environments alike, where good looks and design are as important as ease of cleaning and integral strength. The system can be grouted and sealed for added protection.

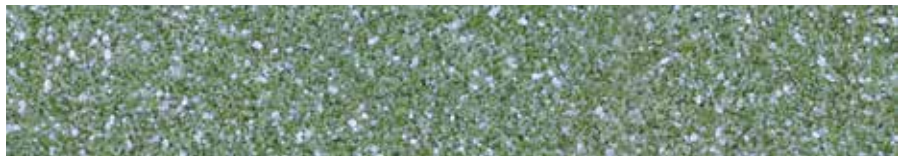

Even though there have been and continue to be many technical advances in printing, colour reproduction and product manufacture, the colours shown may not match and in some cases differ considerably between the actual colours achieved on site. No responsibility can be accepted once the products have been applied. It is strongly recommended that a sample is obtained and checked along with a site sample trial where possible for final approval.

Intrica Glitterati Colour Chart

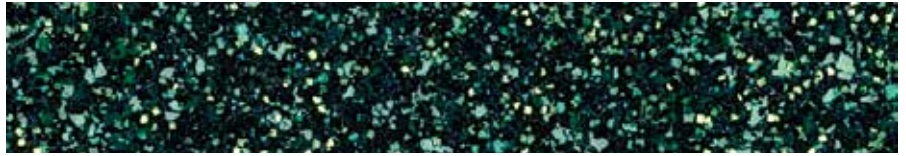

Intrica Glitterati is available in an exciting range of colours. Encapsulating plasticised vinyl and tarnish free metallic flakes within a coloured epoxy resin system sealed with a clear top coat and utilising high build coating or flow applied flooring technology to provide a strong hardwearing base. Suitable for light to medium duty use where both hygiene and aesthetics are of paramount importance, Intrica Glitterati can also be applied as a wall coating to provide a cohesive finish to interiors with an easy to clean surface to complement the floor.

A seamless, hardwearing and hygienic alternative to traditional contract flooring, Intrica Glitterati is ideal for commercial, showroom and leisure environments.

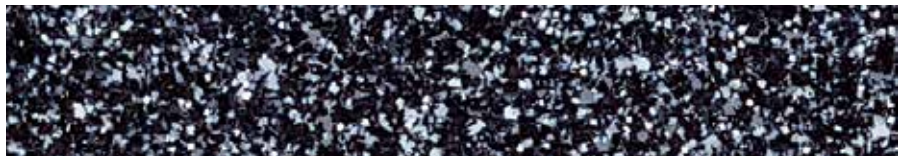

Even though there have been and continue to be many technical advances in printing, colour reproduction and product manufacture, the colours shown may not match and in some cases differ considerably between the actual colours achieved on site. No responsibility can be accepted once the products have been applied. It is strongly recommended that a sample is obtained and checked along with a site sample trial where possible for final approval.

Intrica Illumnia Colour Chart

Intrica Illumnia is a fabulous collection of luxurious yet streamlined neutral colour combinations encapsulated within an epoxy resin matrix to form an integral part of a high build floor and wall coating or flow applied flooring system depending upon environment requirements. In delicate whites, creams and greys, Intrica Illumnia is lifted by the inclusion of pale silver or rich gold tarnish free metallic flakes to showcase the depth of finish whilst maintaining an easy to clean floor surface.

A subtle seamless, hardwearing and hygienic alternative to traditional contract flooring, Intrica Illumnia is ideal for commercial, showroom and leisure environments.
